Following recent successful grant applications we have advertised in the Yate Voice Magazine, this has proven successful and tailoring adverts to the local area has also increased our membership. At a time when public bus routes are being reduced there is a growing need for both transport as well as volunteers to support our service. We would like to have a hal page advert for 6 months ex VAT (which we can claim back) or £275 for a full page advert. We support the local community through transport which improves wellbeing, reduces social isolation and loneliness as well as supporting protected characteristics. From May 2022–2023 we have provided over 12,000 journeys for our Yate Passengers. We regularly review our service to respond to changing community circumstances.	To ensure that Yate residents know about our service as public buses are being cut, particularly for medical f and hospital appointments. We want to ensure we can help with these and also promote Volunteering opportunities. We know the Voice is a successful way to advertise.

6 Hedgehog Rescue, Yate					£1,500.00	£750.00	Our volunteer run hedgehog hospital, cares, treats, and rehabilitates around 500 endangered hedgehogs every year, many of which are successfully re-released back into the wild both locally and across the wider area.	Demand for the service provided by Hedgehog Rescue in Yate is increasing every year with numbers increasing over threefold in the last seven years. Additional capacity is currently being managed by fostering out hedgehogs that have finished a course of treatment or have achieved a survivable weight to volunteers who act as 'half way houses' for an observation period, so that pens in the hospital can be freed up for more poorly hedgehogs. Hedgehog rescue is currently raising funds to fit out a purpose built annexe to the hospital with 15 pens and a treatment area. This will create 50% more capacity, providing support for more hedgehogs in a manageable way. Veterinary grade pens cost just over £1000 each. (quote for 15 pens included in supplementary information). Veterinary grade pens have advantages such as inbuilt sockets to plug in heating pads to warm hedgehogs when necessary, they are made from durable plastic that makes them easier to clean and maintain, they are designed to provide a more 'bio-secure' environment and greater long term durability than wooden alternatives. The increased number of hedgehogs being treated and the wider geographical area some of these are coming in from provides evidence that the service is not widely provided and the centre at Yate plays a very significant role both locally and in the wider region in protecting what is now a red listed endangered species. The centre celebrates its 25th anniversary in 2024 and our aim is to do everything we can to have the annexe completely fitted out with veterinary grade pens to celebrate that milestone. While £16,200 is our overall fundraising target for the project, every £1,500 of support means we can purchase one veterinary grade pen and be one step nearer to our goal. The success of this project will help us to continue to lead the way in protecting an endangered species and help ensure it is around for both present and future residents to enjoy	rehabilitating and re-release of hedgehogs and by raising awareness through educational talks. In the Yate area alone the hedgehog rescue centre re-released 89 hedgehogs in 2021 and 86 in 2022, helping to support this red list endangered species and contributing to the biodiversity of the area	& Bristol but now include neighbouring Counties Gloucs, BANES & Monmouthshire.

The family sessions will include sports, games arts	We provide opportunities for children aged 5-11 to take part in fun play activities in a safe environment. By providing 12 free 4 hour play sessions in Yate where there is a high level of disadvantaged families who cannot afford activities for their children during the long holidays. We aim to reduce anti-social behaviour and promote self-esteem, equal poportunities and aspirations. Sessions will include team games, arts and crafts, and sports, whilst adhering to covid restrictions. We work towards maintaining a level of informal education through the use of themed weeks and working with activity providers, who come in to provide workshops for the children around the weeks theme. We will be having the library visting our Yate location once a week to help the children attending playscheme to complete the summer reading challenge. Working to a ratio of 1:100 workers to children allows us to have up to 40 children per session. Reducing holiday hunger and financial strain on families (which has been made worse by covid-19) by providing a free packed lunch to all children attending the play scheme. We will be vorking with schools and social services to reach out to families who are most in need of our playscheme. We will also run 1 day each of the 4 weeks a 4 hour drop in family session. The family sessions will include sports, games arts and crafts and refreshments will be available for all attending. 10 Yate & District Archaeology Group					£750.00	£250.00	Promote Local archaeology and provide opportunity for local people to get involved with archaeology	To enable the group to engage more good quality speakers. This will provide members and the general public (with an interest in history and archaeology) access to speakers who can engage current and potential new audiences. To engage a wider public with local access to history and practical archaeology (which no other organisation provides) and meet with others with the same interest. The club has taken part in helping to run the Archaeological Finds days at the Heritage Centre. The club has provided practical activities, such as field trips, geophysics studies, finds processing and identification, and hands on opportunities to school children and others at Heritage Centre events. We have a Facebook page (https://www.facebook.com/YateArchaeology) which features opportunities for young people and others to get involved with archaeology at no or low cost. In the last 28 days the page has reached 108 people and our total followers are 295.	Our income at the moment only just covers the cost of speakers and room hire. A grant would allow the group to engage better quality speakers and widen it's activities. We are a non profit making group enhancing awareness of Yate's history. The Yate District Oral History Project was established 36 years ago and has provided a valuable service to local residents interested in furthering their historical knowledge of Yate. The group comprises approximately 25 members, many of whom are eighty plus years old, and recordings of their lives and experiences have been instrumental in the success of the project. There are a large number of recorded interviews describing how things were in the past and in addition the group has published a number of books concerning the history of Yate which are available for sale to the general public through the Heritage Centre and Tourist Information Office. The Cowld pandemic had a serious affect on the finances of the group and we have been very grateful for the support provided to us in 2021 and 2022 by Yate Town Council in the form of two grants for £500. Due to that generosity the group has been able to continue and our finances are now in better shape. We are hopeful that the Council can once again support us this year so that we may continue with a new project that is in the early planning stages. This project is aiming to record local residents' experiences during Covid and lockdown. We intend to record interviews with all age groups starting with our own members and then progressing to the ridiern and later on, their grandchildren. The resulting interviews will be input to the Yate Heritage Centre's database to alliow access to all interested focal residents.	available to residents of Yate & District. 13 Vate Community Bike Hub				£5,000.00	£8,000.00	£2,000.00	as a local means of transport in the Yate area.	The purpose of the grant will be to formally establish e-bike, cargo bike and equipment loans to support everyday cycling in Yate. This grant application follows on from a successful pilot e-bike scheme hosted by CAYACS and the Community Bike Hub on behalf of South Gloucestershire Council in summer 2022 will build on the success of that project and measurable the positive impact it has had on the community (ref SGC's monitoring and evaluation report). This will enhance the work done during the pilot scheme last year and provide Yate residents with the opportunity to try out an electric bike or cargo bike that they may not be able to access in any other way. This scheme has the twin benefits of encouraging new cyclists and supporting existing cyclist to cycle in new ways, and longer term. This application is to purchase 2 unisex electric bikes of different sizes and an electric cargo bike, along with panniers, helmets, security and comprehensive insurance including breakdown cover. This project is not discriminatory and will be available to all Yate residents. It will be open to all adults for short term loans of the bikes (1-3 weeks). Based on the uptake of and demand for the 2022 pilot loan scheme, we anticipate that per year we will be able to specifically serve c. 60 residents per year for short term loans. We will also have the flexibility to take the bikes to events so visitors can try them and to work with employers, particularly local schools by offering for them to host a bike for a period so all staff can try them during breaks or funch. This approach with The Ridge Junior School as part of the original trail led to 4 staff purchasing e-bikes and switching out their commute by car. The stated aim of the Yate Town Council Grants Policy is to 'promote an active community in Yate.' Our project will demonstrably impact the well-being of our community, supporting climate and economic resilience, up-skilling, a circular local economy and active healthy lifestyles for all. It provides vital support to marg	regular requests for advice and information regarding electric bikes. Questions come from a noticeable proportion of female and older residents, along with individuals who would like to start or continue riding, but would like the benefits of the electric assist. Parents regularly enquire about taking children to school via bike and then continuing on to do ohores or commute onwards instead of using a car. An electric cargo bike loan enables people to try changing their mode of travel within the practicalities of their daily life and home situations before committing to the expenditure. It has the power to support conversion and increase uptake of tasks, such as with multiple young children or for shopping trips that become more challenging on a traditional non-electric bike. This application is asking for a grant to cover: Access to E bikes and cargo bike for loan at no cost to the user.	f

However, we also provide a community venue for or arange of local organisations, including 1st Yate Boys Brigade, 1st Yate Girls Brigade, Messy Mondays, Shooting Stars and others.	The Church itself and many of the groups who use our premises make use of the audiol/visual equipment as part of their sessions. With the grateful support of Yate Town Council we were able to purchase a new desktop PC in 2021. The next phase of our work is the desire to replace the aged video projector with two TV screens. Whilst being a religious organisation, this application would benefit the wider range of organisations using our premises as it will enhance and improve the audio/visual facilities we are able to offer to the organisations using our premises as their home. For example, organisations such as Messy Mondays, Boys' Brigade and Girls' Brigade all use the AV equipment on an almost weekly basis as part of their programme of activities with children and young people. This has included things such as providing quizzes, sharing music videos etc. We also work in partnership with Regenerate to provide experiences to local primary schools around Easter and Advent, again use of the churches AV system is a big part of these experiences and engaging with the young people. In the past we have also used the equipment as part of a film club open to the wider community and continue to explore ways we can engage with the wider community through use of our equipment. In the last year we have taken the opportunity of using the equipment we have to open our building as a community venue for screening the Queens Funeral and the Kings Coronation (supported by YTC and SGC respectively).	The projector in our main room is now dated and struggling to provide the quality of experience that could be achieved through an upgrade to TV screens. Replacing the projector with 2 TV screens will make a more dynamic experience for those making use of the building and enable a flexible approach to the use of AV allowing our groups to not only use the in-situ PC but also connect video game consoles etc to the system to wider the experiences offered to those who engage in the various groups.	60.
