Dear Sir or Madam,

**Mousewell Solar Farm. Westerleigh**

Please find below Yate Town Council's response to the above consultation.

Yate Town Council supports the initiative of solar powered farms on the Mousewell Farm site. However, we are concerned that the focus of this development is located by Besom Lane and Sergeant's Bridge.

The current occupants of Shire Way which face towards this development will be able to see the solar units from their residence. This will therefore result in the lack of privacy for the occupants.

We are also note the funding of this project is sourced from an international company as opposed to a local developer.

Yours faithfully

Hayley Townsend  
Town Clerk
