Notes to the Accounts 31 March 2011

1 Principal Accounting Policies

Accounting Convention

The accounts have been prepared in accordance with the Accounting Guidance Notes for Local Council (the Guide) issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) as applicable to a medium sized council.

As a consequence the latest accounting policies, as set out in the Guide and so far as they apply to this council, have been adopted for the council's statement of account.

Fixed Assets

All expenditure on the acquisition, creation or enhancement of fixed assets is reported in the notes to ether accounts, provided that the fixed asset yields benefits to the authority and the services it provides, for a period of more than one year. Fixed assets are valued on the basis recommended by CIPFA. The year end values are stated on the following basis:

land, operational properties and other operational assets are reported in the accounts at current insurance values as approximating to the lower of net current replacement cost and net realisable value.

certain community assets are the subject of restrictive covenants as to their use and/or future disposal. Such assets are therefore considered to have no appreciable realisable value and are included at a nominal value only.

Debtors and Creditors

The revenue accounts of the council are maintained on an accrual basis in accordance with the guide. That is sums due to or from the council during the year are included whether or not the cash has actually been received or paid in the year. Exceptions to this are payment of insurance premiums and regular quarterly accounts (e.g. telephone, electricity). This policy is applied consistently each year. Therefore,. It will not have a material effect on the year's accounts or on the council's annual budget.

Stocks and Work in Progress

All stocks have been treated as consumed because their value was not material.

External Loan Repayments

Details of the council's external borrowings are shown at note 14.

Leases

Details of the council's obligations under finance leases are shown at note 13.

Reserves

The council maintains certain reserves to meet general and specific future expenditure. The purpose of the council's reserves is explained in note 15.

Interest Income

All interest receipts are credited initially to the general funds.

Notes to the Accounts 31 March 2011

Pensions

The pension costs that are charged to the council's accounts in respect of it's employees are equal to contributions paid to the funded pension scheme for these employees.

These contributions are determined by the fund's actuary on a triennial basis and are set to meet 100% of the liabilities of the pension fund. In accordance with the relevant government regulations.

The last actuarial valuation took place on 31 March 2010 and any changes in contribution rates as a result of that valuation will take effect as from 1st April 2011.
